▲ Certificate of Clinical Competence

ASHA American Speech-Language-Hearing Association — The Certificate of Clinical Competence of the American Speech-Language-Hearing Association (ASHA) is a nationally recognized credential for Audiologists and Speech-Language Pathologists. Backed by 60 years of accumulated knowledge and clinical expertise, those who earn this credential meet the highest standards of excellence in their professions. Next time you hire or refer a Speech-Language Pathologist or Audiologist, make sure they're ASHA-Certified. Learn more about the ASHA Certification, or find an ASHA-Certified Professional in your area at ASHACertified.org.

▲ The "World's Best Roof"

Duro-Last Roofing, Inc. — Educational facility professionals throughout North America have learned to trust the Duro-Last roofing system to protect their students. The Duro-Last roofing system is perfect for any low-sloped, new or retrofit application. Whether the roof deck of your project is best handled with prefabricated Duro-Last deck sheets or roll goods, contractors can optimize installation time by using our precision-fabricated flashings. Once installed, a Duro-Last roof is watertight and maintenance-free. Duro-Last has met or exceeded all major fire and wind code requirements as well as regional approvals throughout the country, reinforcing Duro-Last's leadership in providing the consistent watertight integrity that schools expect.

▲ Energy Saving Hand Dryer

Dyson — The Dyson Airblade™ hand dryer is fitted with a HEPA filter that removes 99.9 percent of bacteria from the air used to dry hands. Powered by the Dyson digital motor, the Dyson Airblade™ hand dryer creates a high speed sheet of unheated air to scrape hands dry in just 12 seconds, using up to 80 percent less energy than warm air hand dryers. The machine is the only hand dryer with the Carbon Reduction Label from the Carbon Trust, helping organizations save money and reduce their carbon footprint.

▲ Beautiful, Healthy, Cost-Saving Flooring Solutions

Forbo Flooring Systems — Forbo Flooring Systems is pleased to introduce an expanded color offering for its naturally healthy and cost-effective MCT collection. The refreshed range includes 30 beautiful colors available in a 13-inch-by-13-inch (33-cm-by-33-cm) linoleum tile. Made from natural, renewable ingredients, MCT is USDA Certified 100 percent bio-based and features inherent antimicrobial and anti-static properties that improve indoor air quality and resist bacteria growth without chemical additives. In fact, MCT contains no PVC, no phthalates, no pesticides and does not harbor mold! Need to save time and money? MCT offers guaranteed installed pricing and provides a better balance between initial cost, ongoing cost, and performance than VCT.

▲ Turn Any Classroom into a Safe Dance Space

Harlequin Floors — Expecting children to dance on hard, unyielding or shiny, slippery surfaces can lead to slips, falls and a variety of injuries. These situations can be avoided by choosing the right dance floor. Harlequin Allegro™ is the thickest rollout dance floor available and was developed to protect against hard sub-floors when a sprung floor isn't feasible due to space and budget constraints. Allegro is a semi-sprung floor with a slip-resistance surface that helps protect students from impact injuries. A popular choice in schools and gymnasiums for dance and more!

▲ The Standard in a Walk-Behind Scrubber

Nilfisk Advance — This compact 20 inch and 12 gallon walk-behind scrubber is available with disc or REV orbital scrubbing scrub heads. SmartFlow Technology eliminates extra solution being dispensed by automatically reducing the solution flow rate when the machine is slowed down, extending the productivity per tankful. With larger tanks and less solution dispensed, operators will extend the time between dump and refill cycles by as much as 50 percent. The REV random orbital scrub deck delivers the best cleaning results from all daily scrubbers. Not only is it the perfect daily scrubber, but you can save time and money with your scrub/re-coat projects by deep scrubbing, removing floor finish with water only.

▲ Glitch Art

Mannington Commercial — Technology shapes our culture, day-to-day life, and perspective. We see the world differently than we used to, and when working at its best, seamless interfaces and experiences make us work at our best. Twenty years ago, this was not the case! Remember floppy disks and computer screens with images burned into the display? This collection was inspired by those glitches. Glitch Art takes deliberately produced analog and digital errors and makes them beautiful. When manipulated, they can be highly designed, displayed, and discussed — even serving as inspiration for a beautiful flooring collection. Nostalgic and relevant, beautiful and buggy.

▲ Technology to Enhance Music Education

Wenger Corp. — The VAE® Rehearsal System enables rehearsal rooms to benefit from Wenger's revolutionary Virtual Acoustic Environment (VAE) technology. It enhances and accelerates music learning by creating realistic acoustic simulations of performance spaces ranging from arena to cathedral to recital hall. Custom settings can also be programmed, such as a high school's auditorium. With the control panel, users can select the desired simulation and operate the digital record/playback functions. Advancements in digital technology have dramatically reduced costs, bringing this technology within reach of today's schools and universities.
