

CLOUD JOURNEY: Cloud Aggressive Toolkit

YOU'RE A CLOUD AGGRESSIVE ORGANIZATION...

Your business wasn't created in the cloud, but you're committed to replace your on-prem infrastructure with SaaS apps and to adopt a cloud-first strategy.

Organizations like yours understand the importance of embracing a 100% cloud- and mobile-first strategy. You might be migrating away from Active Directory, working towards a bring-your-own-device (BYOD) environment, or automating the provisioning of employees and partners to modernize your IT strategy. You know you need a single source of truth for identity, but you're not entirely sure what else is needed for success, or how to get there.

Sound familiar? Leverage these resources to understand key challenges and best practices on what to do next.

1 Quick Tips & Considerations

CHECKLIST: CRITICAL CONSIDERATIONS FOR MIGRATING TO THE CLOUD

For many organizations, moving to the cloud isn't a question of why, but when. As a Cloud Aggressive organization, you're ready to modernize your IT—now it's a matter of how.

Learn the four critical considerations for Cloud Aggressive organizations as you transition to a pure cloud and mobile environment.

QUICK GUIDE: OVERCOME THE CHALLENGES OF CLOUD ADOPTION

A cloud-first strategy allows your extended team to work anywhere, on any device they choose. However, when you move your organization to the cloud, you need a strong plan to replace on-prem and legacy resources and give everyone in your company — as well as outside partners and contractors — secure access to the tools they need.

Cloud migration can also change the processes and responsibilities of your IT team and require a different mindset from users and management. It's important to be prepared to address the skepticism that comes with change.

Read four tips to overcome organization-wide adoption hurdles and achieve your cloud-first strategy more quickly.

2 The Devil's In The Details

WHAT 100% CLOUD + MOBILE REALLY MEANS

Learn the seven pillars of a 100% cloud organization that serve as interlinking nodes for cloud-first transformation. As a Cloud Aggressive organization, you are committed to move to the cloud, starting with adding SaaS apps. But there's more to being "cloud-first" than the SaaS apps alone. So what does 100% cloud and mobile really mean? What does it really look like?

Cloud-first is a philosophy of openness, security and user trust. It has specific components that embody a cloud- and mobile-first strategy.

Learn the seven pillars of a 100% cloud and mobile organization that serve as vital, interlinking nodes that drive cloud-first transformation. [Get the whitepaper >](#)

EBOOK: TOP 8 IDENTITY AND ACCESS MANAGEMENT CHALLENGES WITH YOUR SAAS APPLICATIONS

As a Cloud Aggressive organization, you are part of the cloud revolution. One in which IT organizations everywhere are moving from on-premises software to on-demand, cloud-based services.

As IT makes this transition, you are dealt a whole new set of identity management challenges. As the steward of these new services your team must provide insight and advice on SaaS products to get the most business value from their investment.

Learn the eight primary identity and access management (IAM) challenges of adopting and deploying cloud applications. And, most importantly, best practices for addressing each of them. [Read their recommendations >](#)
