

Federal Agencies Require it. CenturyLink Delivers.

Achieve Government IT Modernization with Secure and Reliable Network Connections

Today’s government leaders are being asked to do more with less. From improving operational efficiency and agility to better managing threats and risk, the future of digital government depends on your agency’s ability to modernize network services.

As a trusted provider to the federal government, CenturyLink offers cost-effective voice, networking, cloud, security and professional services. We aim to provide you with reliable connections — when and where you need them. And with proven network security solutions such as E3A, ECS and MTIPS, we can help proactively thwart potential threats before security breaches occur.

Modernize your IT on a fixed budget and purchase exactly what you need from CenturyLink through best-in-class government contract vehicles.

Why Customers Choose CenturyLink

- Network Reach and Reliability**
 With a comprehensive suite of networking solutions that adapt to evolving business needs, we provide connections for virtually wherever your agency is located.
- Technology Expertise and Relevance**
 Our networking, communications, information and security expertise is integral to our collaboration with government agencies.
- Exceptional Customer Experience**
 We understand that you need to focus on your mission. Our committed and experienced team and partners are here to collaborate and to work with you.
- Secure Connectivity**
 Whether network-based or premises-based, our security solutions leverage our reach, scale, visibility, and advanced threat intelligence tools and expertise to help protect your data and applications from threats.
