VISUAL STUDIO LIVE! LAS VEGAS HEALTH POLICY AND PROCEDURES

VSLIVE! LAS VEGAS AIMS TO HOLD A SAFE EVENT, BUT IT IS NOT POSSIBLE TO REMOVE ALL RISK. WE ASK THAT ALL EVENT PARTICIPANTS PLEASE DO THEIR PART TO KEEP OUR COMMUNITY SAFE.

Due to Visual Studio Live! Conference's partially vaccinated customer base, the conference will enforce multi-layered interventions to reduce transmission of COVID-19 and help protect all attendees, speakers, vendors, and staff.

The CDC currently recommends that everyone (including fully vaccinated individuals) wear a mask in public indoor settings in areas with substantial or high COVID-19 transmission. *As of 12/1/21,* Las Vegas, Nevada (Clark County) is experiencing "High Transmission" and advises that "Everyone should wear a mask in public indoor settings."

Everyone attending the event must agree to the **VSLive! Las Vegas COVID-19 Health Protocols.** Attendees agreed to follow the VSLive! Health Event Protocols during the registration process. All event attendees, speakers, vendors, and staff will also sign a waiver during the COVID Antigen Rapid Nasal testing process and provide a cell phone number for test results and contact tracing.

All attendees, speakers, vendors, and staff must:
- Wear masks in public indoor settings to attend the event
- Have negative COVID Antigen Rapid Mid-Nasal test on the first day of event (will be administered onsite by Healthcare Solution Center)
- Choose between two onsite COVID Protocols:

Option 1: Voluntarily provide proof of vaccination
- o Attendees may provide proof of full vaccination prior to the start of the event or by showing their vaccination card to staff at the onsite testing site.
- o If proof of vaccination is provided, attendees will receive a colored wristband after their negative rapid COVID-19 test and be exempt from daily temperature checks and health attestation for the remainder of the week.

Option 2: Pass daily COVID screening protocols
- o Attendees who choose not to share proof of vaccination must clear daily temperature checks and submit daily health attestations after the initial negative rapid COVID-19 test on the first day of the conference to receive a daily color-coded wristband giving them access to the conference area and session rooms.
- o For daily temperature screening and health attestation and to receive your daily color-coded wristband (after your initial negative rapid COVID-19 test), please visit the Daily Wristband Station (before entering the conference area).

Updated: 12/0/21

Attendees / Participants are expected to:
- Self-screen daily for symptoms of COVID-19 or other illness and not attend if experiencing any symptoms.
- Wear masks in all conference areas and session rooms when not actively eating or drinking
- Utilize the hand sanitizer stations readily available throughout the event and practice frequent hand washing
- Should observe quarantining procedures if they register a temperature or become ill during the event

VSLive! Las Vegas Will:
- Implement the health and safety practices as issued by local and state health authorities, including the venue and the Centers for Disease Control (CDC)
- Provide complimentary Antigen Rapid Nasal Test to participants on the first day they come to the conference
- Provide free hand sanitizer throughout the event
- Encourage frequent hand washing, sanitizing and social distancing when necessary
- Regularly clean and sanitize high-touch areas

VSLive! is working closely with the Planet Hollywood Resort to provide a safe and healthy experience for all attendees. All protocols are subject to change based on shifting state and local regulations and the guidance of the Centers for Disease Control and Prevention (CDC).

All questions and concerns should be directed to the VSLive! Safety Officer, Sara Ross at 949-413-5582 or sross@converge360.com
