COVID-19 PREPARATIONS*
Your safety and wellbeing is our priority.

Visual Studio Live! is working closely with the Hyatt Austin to provide a safe and healthy experience for all attendees. Enhanced measures are being implemented in accordance with state and local regulations and following the guidance of the Centers for Disease Control and Prevention (CDC).

Expectations and requirements before the event:

- Visual Studio Live! strongly recommends that attendees get vaccinated if they are able to do so.
- Individuals should not attend the event if they have tested positive for COVID-19 within the last 14 day or if they are concerned that they have been exposed to the virus within the last 14 days and could possibly test positive.
- Individuals who are immunocompromised or at high risk are encouraged to attend virtually.

At Visual Studio Live!

- Visual Studio Live! will implement the health and safety practices as issued by local and state health authorities, including the venue, and the Centers for Disease Control (CDC).
- All attendees should self-screen daily for symptoms of COVID-19 or other illness and not attend if experiencing any symptoms.
- Individuals should follow current CDC mask guidelines based on vaccination status.
- Masks and hand sanitizer will be will be readily available throughout the event.
- Visual Studio Live! will encourage frequent hand washing, sanitizing and social distancing when necessary.
- Program materials will be distributed electronically where possible.
- High-touch areas will be regularly cleaned and sanitized.
- If an event participant registers a temperature, or becomes ill during the event, he/she/they should observe quarantining procedures.

*We will continue to revise our procedures as needed to reflect the current guidelines. In the event that Visual Studio Live! needs to cancel based on a change in the COVID-19 situation, registrants will receive an event credit/refund for their registration fees.
