In order to generate printable PDFs, it is important that the native file (QuarkXPress, Adobe InDesign) is prepared accordingly.

Preparing native files for printable PDFs:

- Multiple pages need to be submitted as single page files
- Set bleeds 1/8" beyond trim
- All images/scans must be in CMYK mode, 300 dpi resolution
- Use Postscript (Type 1) fonts only. No True Type, Windows/PC or custom fonts accepted, unless converted to outlines.
- DO NOT use stylized fonts
- Embed all fonts
- Rules should be .25 point or thicker
- All elements must be placed at 100% size
- Avoid rotation and cropping of images in layout program
- Do not nest EPS files in other EPS files
- Four-color solids should not exceed SWOP density of 280%

Preparing a PDF file (Preferred format):

- Use 1105Media PPD Print Driver
- Use 1105Media Job Option Settings for Distiller
- Set crop marks with a 12 point offset
- PDF file needs to be 1 inch larger than trim size of magazine and include crop marks

Preparing an EPS file (Optional alternative format):

- EPS file formats from Adobe Illustrator, Adobe Photoshop or Macromedia Freehand must be a high resolution CMYK EPS file, layers flattened with fonts converted to outlines or paths.

Proofs

Provide two digital color proofs at 100% size, created from the supplied digital file, on a contract-quality, digital halftone proofing system in accordance with SWOP web coated standards (AGFA Pressmatch, Kodak Approval, DuPont Waterproof, etc.).

Laser or inkjet proofs are not considered accurate in color and are supplied for content confirmation only. If supplied, the Publisher is not responsible for color variances between the digital file and final color reproduction.

IMPORTANT NOTE: If proofs are not supplied, the Publisher reserves the right to have them made at the Advertiser's expense, and make-goods due to reproduction quality will not be honored.

FTP File and Upload Information

Name your files with the magazine name, issue date and project name. All uploads should be followed by either a confirmation phone call or email message to your Production Coordinator to verify the file has been sent.

It is important that the uploaded file is placed in the designated directory for expedient access.
