ELIMINATE PRINT SERVERS

When the U.S. Department of Homeland Security was looking for a way to eliminate more than 400 print servers across the globe, they chose PrinterLogic for its elegant simplicity.

By combining advanced printer migration, management, and provisioning capabilities into one easy-to-use interface, PrinterLogic gives you all the control you need, without the headaches of an overbuilt infrastructure or complicated management tools.

- Eliminate Scripts and GPOs
- Eliminate Print Job WAN Traffic
- Eliminate Single Points of Failure
- Install Printers with a Single Click
- Complete BYOD/Mobile Solution
- Pull Printing from Any Device

...we pulled the plug on our 400+ print servers. That decision has saved us millions of dollars on our printer management and provisioning."

- The U.S. Department of Homeland Security - CBP
